Rulemaking 93-04-003
(Filed April 7, 1993)

Investigation on the Commission's Own Motion into Open Access and Network Architecture Development of Dominant Carrier Networks.

Investigation 93-04-002
(Filed April 7, 1993)

(Verizon UNE Phase)

**ADMINISTRATIVE LAW JUDGE'S RULING
GRANTING INTERVENTION REQUESTS OF DMR COMMUNICATIONS
AND NAVIGATOR TELECOMMUNICATIONS, LLC**

On June 21, 2004, DMR Communications (DMR) and Navigator Telecommunications, LLC (Navigator) filed motions to intervene in the above-captioned proceedings.

DMR is a competitive local exchange carrier (CLC) based in Orange County, California that offers service predominantly through the use of unbundled network elements (UNEs) and the "UNE Platform" (UNE-P). Navigator is a CLC based in Arkansas that offers service in 21 states, including California, also through the use of UNE-P. Both DMR and Navigator seek to intervene as parties in the "Verizon UNE Phase" of this proceeding to comment on the petition to modify Decision 03-03-033 filed by Verizon California on May 21, 2004. Both CLCs state they did not intervene earlier in this proceeding given the large number of regulatory cases in both California and other states

and the companies' limited resources. The intervention requests were not opposed.

Good cause having been shown, the requests by DMR and Navigator to intervene as parties in this proceeding should be granted.

Therefore, **IT IS RULED** that:

1. The motions to intervene filed by DMR Communications and Navigator Telecommunications, LLC are granted.
2. The Process Office and the parties are directed to add the following name to the service list for this proceeding:
